

1-Day Interactive Collision Center Workshop

Introduction to VisionPLUS[®] OnLine

Highlights:

VisionPLUS[®] OnLine (VPOL) is an industry leading interactive tool with which collision center managers and owners can improve the performance of their businesses. It includes assessment tools, monthly reporting of Key Performance Indicators, and a wide range of tools and forms tied to 10 major business sections.

VPOL carefully reviews the importance of measurement and how to utilize the MBO process to assess performance, set goals, and measure continuing progress.

It thoroughly explains the major components of VPOL including

- Paint Department Key Measurements
- Business Profile
- Business Sections and Business Evaluation Criteria
- Tutorials
- Tools & Forms
- The Monthly Report
- National Benchmarks
- VisionPLUS University Curriculum

Finally, VPOL demonstrates how to begin with limited data in the Paint Department to gain the benefits of VPOL quickly and reviews the Paint Department Training Tutorial that ties to the VisionPLUS University courses

All collision center managers will gain valuable information and insights on how to get started with VPOL, and to obtain immediate impact on their collision center performance.
